

Foster-to-Adopt Contract

A 4-Week Trial Period for Adult Cats

COMPLETE THIS FORM IF

- The Foster-to-Adopt (FTA) was approved by a board member
- The cat is an adult cat (6 months and older)
- The cat is fully vetted and ready to be adopted
- Cat will be in the home for a **4-week ONLY trial basis** (no extensions)

GUIDELINES

- The Foster-to-Adopt contract is done **INSTEAD** of the regular adoption contract.
- This option is **NOT** available to kittens (under 6 months) and **ONLY** applies to cats over 6 months old. **NO EXCEPTIONS.**
- **Half of the adoption fee is collected at the time of FTA contract.** If cat is adopted at the end of the trial period, the adopter pays remaining fee. If the cat is returned, the fee is considered a donation.
- The potential adopter does **NOT** receive the cat's full medical records until **AFTER** the adoption is finalized.
- The cat **will remain the property of St. Sophia's Forgotten Felines** for the duration of the 4-week trial basis.
- **Although a cat is FTA, it will still be advertised as available.** St. Sophia's can and will take applications for his/her adoption. The FTA home will be notified if an application comes in and given the chance to finalize the adoption or bring the cat out to be seen.
- Potential adopter must provide **at their own expense** food, water, litter, shelter, exercise, grooming, and training as required.
- **ALL veterinary care that may be required MUST** go through St. Sophia's vets. Any unauthorized veterinary care will be the financial responsibility of the potential adopter.
- At the end of the 4-week trial period, the potential adopter **must choose to either enter into an adoption contract or return the cat back to St. Sophia's** (*at any time during the 4-week trial period the potential adopter may choose to finalize or return the cat*).
